- ✓ SKIN LOOKS **BRIGHTER.**

- ✓ FINE LINES AND WRINKLES LOOK **REDUCED.**

HOW DOES IT WORK?

Glycolic acid removes dead skin cells from skin's top surface layer and also works on the remaining surface layers.

By increasing the rate at which skin-dulling dead cells on multiple surface layers are eliminated, the power of glycolic acid enhances skin's own renewal process for a rejuvenated look.

Makeup Tips for MATURE SKIN

FOUNDATION

- Accentuate your skin's natural beauty while minimizing lines and wrinkles by covering as much space with as little product as possible.
- Cream foundation is best for dry and/or blemished skin, as it offers better coverage than liquid foundation.
- Liquid foundation is best for simply evening out skin tone.
- Look for sheer-, medium- or full-coverage foundation. Heavy foundations can leave the skin looking lifeless.
- If your foundation settles into lines or wrinkles, gently blot it off with a cotton swab, and apply powder.

MARYKAY® TRANSLUCENT
LOOSE POWDER, \$16

POWDER

- *Remember the powder!* It fixes foundation issues and minimizes age-revealing shine.
- Avoid a chalky appearance by using a large powder brush, dabbing from forehead to chin.
- Focus your powder application on the nose and chin, lightly dusting areas with lines and wrinkles.
